

Starlinger is a pioneer for machines and process technology in the international circular economy for plastic packaging solutions. We are convinced of our mission, we accept professional and personal challenges and believe in the quality, necessity and positive impact of our work. Our innovative achievements give us security and stability for further great ideas and the opportunity to make our company fit for the future.

To strengthen our team in Weissenbach an der Triesting we are looking for

Start-up Technician (f/m/d)

Your Contribution

Your workplace is the world! As a commissioning engineer, you are the key person who ensures that complex systems are brought to life. When assembling systems and machines, you are completely absorbed in your work. You are the person who makes sure that machines work and factories can produce. If you enjoy traveling and

That's what your role is all about

Depending on your previous experience and qualifications, you will carry out the following activities independently or as part of a team with one of our experienced technicians:

- **Preparation of Assembly**
 - Together with the Area Service Manager, you prepare the mechanical and electrical assembly in detailed briefings.
- **Customer Interaction and Communication**

would like to use your skills and knowledge with our international customers, we look forward to receiving your application.

- On arrival, you will conduct all necessary preliminary discussions with the customer for final confirmation of the layout and clarification of responsibilities, existing infrastructure, etc.
- You will ensure the smooth running of the installation through continuous coordination with the on-site commissioning team and the customer.
- You create and communicate regular updates to the customer in the desired form, including detailed daily reports to document progress.

- **Project Management, Implementation and Acceptance**

- You act a team and project leader for the temporary team during installation and commissioning.
- You coordinate with the Starlinger team in Austria to identify problems early and develop appropriate solutions.
- You will carry out the start-up and trial operation to resolve any problems during this phase and ensure the final acceptance.

- **Training and Support**

- You will train the customer's production team to ensure smooth production after your departure.

You can utilise these skills

- You have completed technical training (electrical engineering, mechatronics, mechanical engineering, etc.).
- Experience in dealing with customers and/or project planning makes you our ideal candidate.
- Your good language skills in German and English will enable you to exchange technical information with our customers abroad.
- Your strong organizational skills and commitment enable you to implement plans on time while reacting flexibly to changing conditions.

- You find it rewarding to work abroad for several months a year (on average 6 months) and at the same time to have a strong employer to back you up.

We can prepare this offer for you

- An independent job in which you decide autonomously on the process.
- Strong teamwork to exchange experiences and support each other.
- Company events.
- Participation in the company's success.
- Comprehensive training, if necessary attendance of required specialist courses.

The minimum salary according to the collective agreement is EUR 40,500 gross per year. With about 180 days of travel per year, the annual gross salary can rise to an average of EUR 60,000 - EUR 75,000, depending on qualifications and previous experience.

Become part of our team and shape the future together with us!
