

Starlinger is a pioneer for machines and process technology in the international circular economy for plastic packaging solutions. We are convinced of our mission, we accept professional and personal challenges and believe in the quality, necessity and positive impact of our work. Our innovative achievements give us security and stability for further great ideas and the opportunity to make our company fit for the future.

To strengthen our team in Weissenbach an der Triesting we are looking for

## Laboratory technician (m/f/d) for the analysis of recycled plastics

### Your Contribution

Would you like to make the world a more sustainable place? Then join us as a laboratory technician and work with us to transform waste into new, high quality materials. In the responsible role, you will complement our team in implementing a circular economy.

### That's what your role is all about

- You will be responsible for the quantitative analysis of plastic waste, pre-treated materials and regranulates. The focus will be on gas chromatographic analysis based on GC-FID and GC-MS.
- Analytical sensor technology, physical testing and sample preparation form another component of your work.

- Based on your findings, which you document in test reports and incorporate into work instructions, you will contribute directly to improving the processes at our recycling machines.
- You will be responsible for ordering and managing the inventory of necessary consumables and chemical substances.

## You can utilise these skills

- Specialised training in chemistry or technical chemistry (college, university - dropouts welcome), or training as a chemical laboratory assistant.
- 2-3 years of professional experience in a laboratory is an advantage, but we are also open to career starters.
- High willingness to learn, an analytical approach to work and strong problem solving skills
- Good knowledge of German and English

## We can prepare this offer for you

- A varied position in an international company, in an interesting, rapidly growing and innovative field
- A committed and dynamic team
- Company events
- Participation in the company's success
- Flexible working hours (part time possible)

For legal reasons, we would like to point out that the collective agreement minimum salary is Euro 2.900,-- gross/month. Based on qualifications and existing previous experience we will pay on market level.

Become part of our team and shape the future together with us!
