# Service/ Installation Engineer Thailand

We would like to strengthen our position as world market leader and are looking for a service/installation engineer for polywoven packaging machines and recycling machines in Thailand.

## Who we are

Plastic, when used properly and in the right areas, is recognized as one of the most sustainable packaging solutions worldwide and cannot be replaced by alternative materials in numerous application fields.

Starlinger is a pioneer in the resource-efficient use of this raw material and offers its machines and process technology for woven plastic

## What awaits you

- Installation and service of Starlinger machinery in Thailand and surrounding countries
- Start-up and service of mechanical, as well as electrical components of our polywoven packaging machines and recycling machines
- Cooperation with our local customers and Starlinger head office in Austria

bags as well as plastic recycling  
plants worldwide

## What you bring to the table

- Thai nationality
- Military service should be completed
- Bachelor degree in Engineering or comparable education
- Preferred age: 25-35
- A minimum of 2 years work experience in a similar position
- Experience with customer contact is definitely of advantage
- Good English skills in speaking and writing
- Willingness to travel extensively within Thailand and partly surrounding countries
- Good communication skills with customers

## What we offer you

- Job security on a freelance basis in an international active company
- Training possibilities in Austria

You're looking for an exciting challenge and want to help shape the future of a highly innovative family-run company? Then please send your application!
