To strengthen our team in Weissenbach an der Triesting we are looking for

Electrical Design Engineer (m/f/d)

Your Contribution

Be part of it right from the start! You are passionate about the development of new electrical equipment, from the "drawing board" to a fully functional machine, and you are able to balance technical creativity with compliance with standards. If you´d like to contribute all your expertise as an electical engineer to a

That´s what your role is all about

- You will use E-Plan to draw up all the circuit diagrams for our machines and will be responsible for the accuracy of the resulting bills of material.
- In consultation with our mechnical designers, you will be responsible for the correct selection and dimensioning of components.
- Both new design work and improvements to series support call upon your expertise on a daily basis.

successful, international team, then you´ve come to the right place here in Weissenbach!

- Through test set-ups and prototypes, you can see your designs in action on the machine itself and thus refine them further.
- You place great importance on documenting each step so that you can pass on your expertise to others and thus continue to grow as a team.
- Compliance with EU and country specific standards and guidelines in mechanical engineering is a key priority for you in creating high-quality products.

You can utilise these skills

- Completed technical training (HTL or University of Applied Science) specialisting in electrical engineering
- Knowledge of E-Plan or similar software
- Knowledge of drive technology
- Knowledge of safety engineering and standards
- Good command of German and English
- The ability to communicate effectively at various levels

We can prepare this offer for you

- A varied position in an international company, in an interesting, rapidly growing and innovative field
- A committed and dynamic team
- Company events
- Participation in the company's success
- Home office option (currently one day/week)
- Flexible working hours

The role comes with an minimum salary under the collective agreement fo approx. 3.400,-- gross per month. We are, of course, prepared to offer a competitive an attractive salary in line with the market rate for candidates with the relevant experience and qualifications.
