

Apprentice

Start your apprenticeship in technology: your future begins now!

🛠️ Your Apprentice Taster Days in Metal Manufacturing –

Experience Real Industry Practice! ⚙️

Are you still in school but want to know right now what real industrial practice feels like? Are you ready to get hands-on and experience live how cutting-edge technology transforms raw metal into high-precision components and machinery?

Then you've come to the right place! 🔥 As an industry specialist, our focus is entirely on manufacturing. With us, you will learn your trade right where the action happens: directly on our production floor!

We offer you an exciting insight into our apprenticeships: 🤩

- 🤖 Electrical Machine Engineering (Mechatronics)
- 🔌 Plant and Operational Technology (Electrical Engineering)
- 🔩 Mechanical Engineering (Metal Technology)
- ⚙️ Machining Technology (Metal Technology)

Ready for your taster days?

Take the first step for your future, get a look behind the scenes, and secure your taster days! 👀

🚀 What are your waiting for? Engineer Your Career in circular economy at Starlinger!

✨ We are looking forward to meeting you! ✨
